

Linux

[Linux](#) is a family of open source Unix-like operating systems based on the [Linux kernel[\[text\]](#), an operating system kernel first released on September 17, 1991, by [Linus Torvalds](#). Linux is typically packaged as a [Linux distribution](#) (distro), which includes the kernel and supporting system software and libraries—most of which are provided by third parties—to create a complete operating system, designed as a clone of Unix and released under the copyleft GPL license.
